

## Environmental Policy

Datacentre UK seeks excellence in every aspect of our business and are committed to minimising the environmental aspects of our business operations, in accordance with sound Environmental practices.

### We will achieve this by:

- Managing our business operations to prevent pollution
- Endeavouring to continuously improve our environmental performance and integrate applicable best practices into our business operations
- Reducing our consumption of natural resources and energy and improve efficiency in using these resources
- Ensuring all waste is disposed of in a safe and responsible manner
- Complying with all relevant environmental legislation

To secure these objectives we will:

- Review our environmental policy regularly
- Communicate our environmental policy internally and externally and encourage feedback
- Provide training for our staff on environmental procedures
- Work together with our business partners and suppliers to encourage commitment towards improved environmental performance

This policy outlines Datacentre UK's responsibility towards protection of the environment, and issues this statement as a commitment of both management and employees to minimising the environmental impact of its operations.
